UNIVERSITY OF CALIFORNIA PATENT POLICY—October 1, 1997

I. PREAMBLE

It is the intent of the President of the University of California, in administering intellectual property rights for the public benefit, to encourage and assist members of the faculty, staff, and others associated with the University in the use of the patent system with respect to their discoveries and inventions in a manner that is equitable to all parties involved.

The University recognizes the need for and desirability of encouraging the broad utilization of the results of University research, not only by scholars but also in practical application for the general public benefit, and acknowledges the importance of the patent system in bringing innovative research findings to practical application.

Within the University, innovative research findings often give rise to patentable inventions as fortuitous by-products, even though the research was conducted for the primary purpose of gaining new knowledge. The following University of California Patent Policy is adopted to encourage the practical application of University research for the broad public benefit; to appraise and determine relative rights and equities of all parties concerned; to facilitate patent applications, licensing, and the equitable distribution of royalties, if any; to assist in obtaining funds for research; to provide for the use of invention-related income for the further support of research and education; and to provide a uniform procedure in patent matters when the University has a right or equity.

II. STATEMENT OF POLICY

A. An agreement to assign inventions and patents to the University, except those resulting from permissible consulting activities without use of University facilities, shall be mandatory for all employees, for persons not employed by the University but who use University research facilities, and for those who receive gift, grant, or contract funds through the University. Such an agreement may be in the form of an acknowledgment of obligation to assign. Exemptions from such agreements to assign may be authorized in those circumstances when the mission of the University is better served by such action, provided that overriding obligations to other parties are met and such exemptions are not inconsistent with other University policies.

B. Those individuals who have so agreed to assign inventions and patents shall promptly report and fully disclose the conception and/or reduction to practice of potentially patentable inventions to the Office of Technology Transfer or authorized licensing office. They shall execute such declarations, assignments, or other documents as may be necessary in the course of invention evaluation, patent prosecution, or protection of patent or analogous property rights, to assure that title in such inventions shall be held by the University or by such other parties designated by the University as may be appropriate under the circumstances. Such circumstances would include, but not be limited to, those situations when there are overriding patent obligations of the University arising from gifts, grants, contracts, or other agreements with outside organizations.

In the absence of overriding obligations to outside sponsors of research, the University may release patent rights to the inventor in those circumstances when:

1. the University elects not to file a patent application and the inventor is prepared to do so, or

2. the equity of the situation clearly indicates such release should be given, provided in either case that no further research or development to develop that invention will be conducted involving University support or facilities, and provided further that a shop right is granted to the University.

C. Subject to restrictions arising from overriding obligations of the University pursuant to gifts, grants, contracts, or other agreements with outside organizations, the University agrees, following said assignment of inventions and patent rights, to pay annually to the named inventor(s), or to the inventor(s)' heirs, successors, or assigns, 35% of the net royalties and fees per invention received by the University. An additional 15% of net royalties and fees per inventor's campus or Laboratory. Net royalties are defined as gross royalties and fees, less the costs of patenting, protecting, and preserving patent and related property rights, and such other costs, taxes, or reimbursements as may be necessary or required by law.

Inventor shares paid to University employees pursuant to this paragraph

represent an employee benefit. When there are two or more inventors, each inventor shall share equally in the inventor's share of royalties, unless all inventors previously have agreed in writing to a different distribution of such share.

Distribution of the inventor's share of royalties shall be made annually in November from the amount received during the previous fiscal year ending June 30th, except as provided for in Section II.D. below. In the event of any litigation, actual or imminent, or any other action to protect patent rights, the University may withhold distribution and impound royalties until resolution of the matter.

D. The DOE Laboratories may establish separate royalty distribution formulas, subject to approval by the President. Distribution of the inventor's share of DOE Laboratory royalties shall be made annually in February from the amount received during the previous fiscal year ending September 30th. All other elements of this policy shall continue to apply.

E. Equity received by the University in licensing transactions, whether in the form of stock or any other instrument conveying ownership interest in a corporation, shall be distributed in accordance with the Policy on Accepting Equity When Licensing University Technology.

F. In the disposition of any net income accruing to the University from patents, first consideration shall be given to the support of research.

III. PATENT RESPONSIBILITIES AND ADMINISTRATION

A. Pursuant to Regents' Standing Order 100.4(mm), the President has responsibility for all matters relating to patents in which the University of California is in any way concerned. This policy is an exercise of that responsibility, and the President may make changes to any part of this policy from time to time, including the percentage of net royalties paid to inventors.

B. The President is advised on such matters by the Technology Transfer Advisory Committee (TTAC), which is chaired by the Senior Vice President—Business and Finance. The membership of TTAC includes the Provost and Senior Vice President—Academic Affairs, the Director of the Office of Technology Transfer, and representatives from the campuses, DOE Laboratories, Academic Senate, the Division of Agriculture and Natural Resources and the Office of the General Counsel. TTAC is responsible for:

1. Reviewing and proposing University policy on intellectual property matters including patents, copyrights, trademarks, and tangible research products;

2. Reviewing the administration of intellectual property operations to ensure consistent application of policy and effective progress toward program objectives; and

3. Advising the President on related matters as requested.

C. The Senior Vice President—Business and Finance is responsible for implementation of this Policy, including the following:

1. Evaluating inventions and discoveries for patentability, as well as scientific merit and practical application, and requesting the filing and prosecution of patent applications.

2. Evaluating the patent or analogous property rights or equities held by the University in an invention, and negotiating agreements with cooperating organizations, if any, with respect to such rights or equities.

3. Negotiating licenses and license option agreements with other parties concerning patent and or analogous property rights held by the University.

4. Directing and arranging for the collection and appropriate distribution of royalties and fees.

5. Assisting University officers in negotiating agreements with cooperating organizations concerning prospective rights to patentable inventions or discoveries made as a result of research carried out under gifts, grants, contracts, or other agreements to be funded in whole or in part by such cooperating organizations, and negotiating with Federal agencies regarding the disposition of patent rights.

6. Approving exceptions from the agreement to assign inventions and patents to the University as required by Section II.A. above.

7. Approving exemptions to University policy on intellectual property matters including patents, copyrights, trademarks, and tangible research products.

CONFIDENTIALITY AGREEMENT

Applies to all UCSD Health "workforce members" including: employees, medical staff and other health care professionals; volunteers; agency, temporary and registry personnel; and house staff, students, and interns (regardless of whether they are UCSD trainees or rotating through UCSD Health facilities from another institution).

It is the responsibility of all UCSD Health workforce members, as defined above, including employees, medical staff, house staff, students and volunteers, to preserve and protect confidential employee, patient and business information.

The State Information Practices Act (California Civil Code sections 1798 et seq.) governs the acquisition and use of data that pertains to individuals. All of these laws establish protections to preserve the confidentiality of various personal and medical information and specify that such information may not be disclosed except as authorized by law or the patient or individual. The Federal Health Insurance Portability Accountability Act (HIPAA) Privacy Law, the Confidentiality of Medical Information Act (California Civil Code § 56 et seq.) and the Lanterman-Petris-Short Act (California Welfare & Institutions Code § 5000 et seq.) govern the release of patient identifiable information by hospitals and other health care providers.

Confidential Employee and Business Information includes, but is not limited to, the following:

- · Employee home telephone number and address;
- Spouse or other relative names;
- · Social Security number or income tax withholding records;
- · Information related to evaluation of performance;
- Other such information obtained from the University's records which if disclosed, would constitute an unwarranted invasion of privacy; or
- Disclosure of Confidential business information that would cause harm to UCSD Health.

Confidential Patient Care Information includes: Any individually identifiable information in possession or derived from a provider of health care regarding a patient's medical history, mental, or physical condition or treatment, as well as the patients and/or their family members records, test results, conversations, research records and financial information. Examples include, but are not limited to:

- Physical medical and psychiatric records including paper, photo, video, diagnostic and therapeutic reports, laboratory and pathology samples;
- Patient insurance and billing records;
- Mainframe and department based computerized patient data and alphanumeric radio pager messages;
- · Visual observation of patients receiving medical care or accessing services; and
- Verbal information provided by or about a patient.

Peer review and risk management activities and information are protected under California Evidence Code

section 1157 and the attorney-client privilege.

I understand and acknowledge that:

- I shall respect and maintain the confidentiality of all discussions, deliberations, patient care records and any
 other information generated in connection with individual patient care, risk management and/ or peer review
 activities.
- It is my legal and ethical responsibility to protect the privacy, confidentiality and security of all employee records/medical records, proprietary information and other confidential information relating to UCSD Health and its affiliates, including business, employment and medical information relating to our patients, members, employees and health care providers.
- 3. I shall only access or disseminate employee/patient care information in the performance of my assigned duties and where required by or permitted by law, and in a manner which is consistent with officially adopted policies of UCSD Health, or where no officially adopted policy exists, only with the express approval of my supervisor or designee. I shall make no voluntary disclosure of any discussion, deliberations, patient care records or any other patient care, peer review or risk management information, except to persons authorized to receive it in the conduct of UCSD Health affairs.
- UCSD Health performs audits and reviews employee/patient records in order to identify inappropriate access.
- My user ID is recorded when I access electronic records and that I am the only one authorized to use my user ID. Use of my user ID is my responsibility whether by me or anyone else. I will only access the minimum necessary information to satisfy my job role or the need of the request.
- 6. I agree to discuss confidential information only in the work place and only for job related purposes and to not discuss such information outside of the work place or within hearing of other people who do not have a need to know about the information.
- 7. I understand that any and all references to HIV testing, such as any clinical test or laboratory test used to identify HIV, a component of HIV, or antibodies or antigens to HIV, are specifically protected under law and unauthorized release of confidential information may make me subject to legal and/or disciplinary action.
- 8. I understand that the law specially protects psychiatric and drug abuse records, and that unauthorized release of such information may make me subject to legal and/or disciplinary action.
- 9. My obligation to safeguard patient confidentiality continues after my termination of employment with the University of California.

I hereby acknowledge that I have read and understand the foregoing information and that my signature below signifies my agreement to comply with the above terms. In the event of a breach or threatened breach of the Confidentiality Agreement, I acknowledge that the University of California may, as applicable and as it deems appropriate, pursue disciplinary action up to and including my termination from the University of California.

I understand that in the performance of my duties at UCSD, I must hold information in confidence. I have read and understand the <u>Rules of Conduct for University Employees Involved with Information Regarding</u> <u>Individuals</u> (attached). I understand that unauthorized disclosure of personal/confidential information may result in charges of Invasion of Privacy.

I also understand that it is against UCSD Information Systems policy to seek out or use personal or confidential information relating to others for my own interest or advantage.

I understand that under California State Law any person who maliciously accesses, alters, deletes, damages, or destroys any computer system, network, computer program, or data is guilty of a felony.

I am aware that the <u>References</u> and <u>Related Policies</u> on the attached sheet outline University policies and State and Federal laws which govern use of computer systems and disclosure of information. I understand that failure to comply with the regulations may result in disciplinary action, which could include release from employment. Violation of local, state, or federal statues may carry the additional consequence of prosecution under the law, where judicial action may result in specified fines or imprisonment, or both, plus the costs of litigation or the payment of damages, or both.

RULES FOR CONDUCT FOR UNIVERSITY EMPLOYEES INVOLVED WITH INFORMATION REGARDING INDIVIDUALS

- A. Employees responsible for the collection, maintenance, use and dissemination of information about individuals which relates to their personal life, including their employment and medical history, financial transactions, marital status and dependents, shall comply with the State of California Information Practices Act. <u>PPM-480-3</u> <u>Privacy of and Access to Information, Legal Requirements and Implementing Procedures</u>, shall be used as a basic source of guidance in administering the Act's provisions.
- B. Employees shall not require individuals to disclose personal information which is not necessary and relevant to the purposes of the University or to the particular function for which the employee is responsible.
- C. Employees shall make every reasonable effort to see that inquiries and requests relating to personal records of individuals are responded to quickly and without requiring the individual to unnecessarily repeat his or her inquiry to others. In other words, reasonable efforts will be made to place the responsibility on the Department for responding to the individual after his/her initial contact.
- D. Employees shall assist individuals who seek information pertaining to themselves in making their inquiries sufficiently specific and descriptive so as to facilitate the locating the records.
- E. Employees shall respond to inquiries from individuals, and requests from them to review, obtain copies of, amend, correct, or dispute their personal records in a courteous and business-like manner, and in accordance with PPM-80- 3.
- F. Employees shall not disclose personal and confidential information relating to individuals to unauthorized persons or entities. The intentional disclosure of such information to such persons may be cause for disciplinary action.
- G. Employees shall not seek out or use personal or confidential information relating to others for their own interest or advantage. The intentional violation of this rule may be cause for disciplinary action.
- H. Employees responsible for the maintenance of personal and confidential records shall take all necessary precautions to assure that proper administrative, technical, and physical safeguards are established and followed in order to protect the confidentiality of records containing personal information and to assure that such records are not disclosed to unauthorized individuals or entities.

Signature of Participant Date

Assumption of Risks: Participation in The Activity carries with it certain inherent risks that cannot be eliminated regardless of the care taken to avoid injuries. The specific risks vary from one activity to another, but the risks range from 1) minor injuries such as scratches, bruises, and sprains 2) major injuries such as eye injury or loss of sight, joint or back injuries, heart attacks, and concussions to 3) catastrophic injuries including paralysis and death.

I have read the previous paragraphs and I know, understand, and appreciate these and other risks that are inherent in The Activity. I hereby assert that my participation is voluntary and that I knowingly assume all such risks.

Indemnification and Hold Harmless: I also agree to INDEMNIFY AND HOLD The Regents of the University of California HARMLESS from any and all claims, actions, suits, procedures, costs, expenses, damages and liabilities, including attorney's fees brought as a result of my involvement in The Activity and to reimburse them for any such expenses incurred.

Severability: The undersigned further expressly agrees that the foregoing waiver and assumption of risks agreement is intended to be as broad and inclusive as is permitted by the law of the State of California and that if any portion thereof is held invalid, it is agreed that the balance shall, notwithstanding, continue in full legal force and effect.

Acknowledgment of Understanding: I have read this waiver of liability, assumption of risk, and indemnity agreement, fully understand its terms, and understand that I am giving up substantial rights, including my right to sue. I acknowledge that I am signing the agreement freely and voluntarily, and intend by my signature to be a complete and unconditional release of all liability to the greatest extent allowed by law.
